

GOOD PROSPECTS FOR FINE CROPS

Outlook For the State
Continues Good.

ABOUT HALF A TOBACCO CROP

Planted, But Condition Good
—Report Is Issued On
New Basis.

A WARNING AS TO "PINKY"

Frankfort, Ky., June 13.—The splendid prospects for crops in Kentucky, shown by the Crop report of May 1, issued by the State Department of Agriculture, have been maintained to June 1, says the report. The report also speaks of the catarrhal fever, which is prevalent and fatal among horses in all sections of the State.

Lack of rain in the extreme western part and excessive moisture in the central and eastern portions are the only drawbacks to crop conditions.

The report follows:

"The May crop report is issued on an entirely different basis from any previous report. During the last winter, based on the 1910 census, the State has been divided into nine crop-reporting districts and each district given a percentage weight in proportion to the yield of that crop in that district when compared with the total yield for the State. This is the plan governing the crop reporting for the Federal Government. There are now three separate sets of reports reporting in this same way to three separate heads. We believe this will give us a more accurate summary of crop conditions than the State has ever yet gotten out.

Good Prospect Maintained.

"The splendid prospects for a good crop May 1 have been generally maintained up to June 1. A great deal of complaint comes from Western Kentucky of lack of moisture. Central and Eastern Kentucky suffered from the same cause during the first of the month, and have suffered from an excessive amount of moisture during the latter part of May. However, most of the crops are in good condition, relatively speaking. Wheat shows condition of 85.7 per cent. and is filling well. The corn crop is not all planted, but there is an indicated crop of 94.5 per cent. The condition of planted corn is reported as 90.8 per cent. The oats crop—89.4 per cent. and condition 79.4 per cent. The condition of rye is 56.4 per cent. It will be noted that an early drouth affected the rye and oats crops considerably. The same is true of timothy. The condition of potatoes is given as 93.1 per cent., indicating a splendid crop.

Outlook For Tobacco.

"About 52.8 per cent. of an average crop of dark tobacco has been transplanted, which shows condition of 81.7 per cent.; 57.5 per cent. of the Burley crop was transplanted by June 1, with condition of 81 per cent. The tobacco plants in the dark district are reported small and scarce, indicating a shortage in the crop, while in the Burley district they are reported in splendid condition and plentiful. Excessive rains have occurred throughout the State since the first of June, and every prospect is for an average planting of Burley and a fairly large crop of dark. Many complaints of cut worms both for tobacco and corn. The bluegrass seed crop will be a short one. The condition of grasses is given as: Bluegrass, 88.6 per cent.; clover, 81 per cent.; alfalfa, 80 per cent.; and orchard grasses, 84 per cent. The drouth has affected pastures in Western Kentucky, but in Central and Eastern Kentucky the pastures are good.

Live Stock and Fruit.

"Cattle are reported in good condition; hog cholera is not so bad as during the winter months, and the

condition of sheep and lambs has done well, and there is a splendid crop of young chickens, turkeys and other fowls.

"The condition of apples is 85 per cent.; peaches, 78.5 per cent.; pears, 61 per cent.; grapes, 89 per cent.; plums, 67 per cent.; cherries, 84.5 per cent. The strawberry crop has been fairly good. There is every promise for one of the largest blackberry crops the State has ever had.

"Pinkie" Among Horses.

"There is a disease known as catarrhal fever or 'pink eye' among horses in several counties. The disease is proving fatal in many instances, and farmers are warned against taking animals into towns where this disease is known to exist and against working them if the animals once become infected. This department has on hand directions for handling this malady, a bulletin prepared by the State veterinarian, Dr. Robert Graham, and directions for disinfecting infected stables. These will be sent free upon application to the department.

Cultivation of Corn.

"There has been a large corn crop planted, the stand is almost perfect, and farmers are urged to try shallow and frequent cultivation for the coming season. The old idea that three or four plowings are sufficient to make a corn crop, should be abandoned, and, if possible, plow five, six or seven times, but plow shallow. The farmer can very nearly count on getting an extra barrel of corn per acre for every extra plowing he gives his corn. If it is a bushel, it will nearly pay its cost.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that can not be cured by Hall's Catarrh Cure.

F. J. Cheney & Co.,
Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm.

Walding, Kinnam & Marvin,
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75c per bottle. Sold by all druggists.

Take Hall's Family Pills for constipation.

Prohibition Notes.

A two-headed turtle has been discovered at Cherryvale, Kan.

A frog with six-inch eyes has been seen in Pennsylvania.

A Maryland snake swallowed a cast-iron rabbit.

Black ants carrying red, white and blue parasols are reported in New York.

A fish with four legs and a tail ran into a California saloon and bit an innocent bystander.

A Worker Appreciates This.

Wm. Morris, a resident of Florence, Oregon, says: "For the last fourteen years my kidneys and bladder incapacitated me for all work. About eight months ago I began using Foley Kidney Pills, and they have done what other medicines failed to do, and now I am doing and feeling fine. I heartily recommend Foley Kidney Pills." Foley Kidney Pills do not contain habit-forming drugs and are tonic in action, quick in results. They will help any case of kidney trouble not beyond the reach of medicine. For sale by all dealers. m (Advertisement.)

A Little Too Hot.

"I've come to tell ye, Mrs. Malone, that yer husband met with an accident."

"An, what is it now?" wailed Mrs. Malone.

"He was overcome by the heat, mum."

"Overcome by heat, was he? An' how did it happen?"

"He fell into the furnace over at the foundry, mum."

BIG BOOSTS FOR PIKES.

—OLD STORY REVIVED

Of all the yarns that ever came down the line regarding deep mud, the following should be entitled to the blue ribbon. It happened in the place where mud originated:

A man was walking along the roadside one day and noticed a fairly good looking hat out in the road. Reaching out with his cane, he gave it a cut and was startled to hear a voice, exclaim: "Here, what the deuce are you doing?" Then he made the astonishing discovery that the owner of the headpiece was under the hat, up to his ears in mud. "Great heavens!" exclaimed the man who had hit the hat. "Is that mud as deep as that?" "Deep!" cried the victim. "Why, man alive, I'm standing on a load of hay!"

BRINGING TO LIFE OF DEAD PERSON

By Transfusion Of Blood
Is Now Possible.

THE LIFE OF PATIENT SAVED

After He Was "Moribund To
Human Knowledge,"
Says Doctor.

AMAZING RESULTS OBTAINED

New York, June 13.—The miracle of bringing the dead back to life, Dr. A. L. Soresi, of Fordham University, thinks will be a scientific achievement of the future. Dr. Soresi, who is attached to the staff of the Flower Hospital, for five years has conducted experiments of transfusion of blood, with results, he says, that are amazing.

Prof. Soresi to-day told of saving the life of a male patient, and the body was apparently moribund. After the explanation of his experiments with transfusion of blood in animals, Prof. Soresi said:

"An experiment with a male pneumonia patient was perhaps not as spectacular, but more gratifying in results. This patient was entirely without respiration from all tests applied and therefore actually moribund to human knowledge when I made a transfusion of blood from a normal man through the jugular vein of the patient. The return to life was prompt and recovery followed in due course.

"If such transfusions could be made promptly, the loss of life would be materially lowered.

"In a recent experiment at Flower Hospital, I pumped all the blood from a dog until the animal lay absolutely lifeless. For 16 minutes I allowed the animal to remain without a spark of life. The heart had stopped beating and every function of life had ceased.

"I connected the blood vessels of the dog with those of another dog and permitted the blood to flow. Inside of five minutes there was a complete return of life, and the dog soon was yelping in an entirely normal way. Other experiments with dogs have yielded amazing results.

"When the way has been found to connect directly with the left side of the heart, medical science will be able to restore human beings to life after all animation has been suspended, provided there is no organic trouble. The resuscitation will be effective in cases of gas or drug poisonings, hemorrhages and such diseases as typhoid and pneumonia. Sudden death by accident when no vital organ has been crippled, will fall within the scope of the transfusion method.

"Under the new science it will be possible to restore life after it has been extinct for half an hour. I am devoting most of my time to these experiments, and hope before long to be able to make an important announcement to the world of science."

Best Laxative for the Aged.

Old men and women feel the need of a laxative more than young folks, but it must be safe and harmless and one which will not cause pain. Dr. King's New Life Pills are especially good for the aged, for they act promptly and easily. Price 25c; Recommended by James H. Williams. m (Advertisement.)

REMEDY FOR NOSE BLEED

—IS EASILY APPLIED

There are two little arteries which supply the whole face with blood, one on each side. These branch off from the main arteries on each side of the windpipe, and, running upward toward the eyes, pass over outside of the jawbone, about two-thirds of the way back from the chin to the angle of the jaw, under the ear. Now, suppose your nose bleeds by the right nostril; with the end of the forefinger feel along the outer edge of the right jaw until you feel the beating of the artery directly under your finger, the same as the pulse in your wrist; then press the finger hard upon it, thus getting the little fellow in a tight place between your finger and the jawbone. The result will be that not a drop of blood goes into that side of the face while the pressure continues; hence the nose instantly stops bleeding.

Ayer's Hair Vigor
Just a little care and small expense, that's all. Isn't a head of rich, heavy hair worth while?
Ask Your Doctor.
J. C. Ayer & Co., Lowell, Mass.

for want of blood to flow, and the ruptured vessels in the nose will probably by that time contract, so that when you let the blood into them they will not bleed. Bleeding from a cut or wound anywhere about the face may be stopped in the same way. —[Family Doctor.]

LAWS FOR WOMEN, BY WOMEN—AN INSTANCE

The following incident, clipped from an Eastern paper, is recommended to those indulging in the curious opinion that laws relating to women ought to be made by women. A young woman was charged with attempting suicide. It seems that eight years ago she was so indiscreet as to become a mother under circumstances that may be described as unconventional. She concealed the birth of the child and supported it and herself by honest work. But misfortune disclosed the fact which she had successfully hidden for eight years. All her women friends deserted her, ostracized and gibbeted her, she was compelled to move away, and so she lost her situation and could not get another, and finally she took to drink and then tried to kill herself. Let us try to imagine what kind of "laws for women" would be passed by these evil vultures who, unannounced and unfeeling, drove that poor girl to suicide.

When your child has whooping cough be careful to keep the cough loose and expectoration easy by giving Chamberlain's Cough Remedy will also liquefy the tough mucus and make it easier to expectorate. It has been used successfully in many epidemics and is safe and sure. For sale by all dealers. m (Advertisement.)

A Quaint Wire.

Col. Roosevelt, the exterminator of race suicide, received during his Vermont tour an invitation to a cowboy's wedding in Texas.

Col. Roosevelt, of course, could not attend the wedding ceremony, but he sent an interesting and characteristic telegram to the cowboy bride and groom:

"Congratulations! And may your only troubles be little ones!"

For Weakness and Loss of Appetite

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.
I wish every suffering woman would give

CARDUI

The Woman's Tonic

a trial. I still use Cardui when I feel a little bad, and it always does me good."

Headache, backache, side ache, nervousness, tired, worn-out feelings, etc., are sure signs of womanly trouble. Signs that you need Cardui, the woman's tonic. You cannot make a mistake in trying Cardui for your trouble. It has been helping weak, ailing women for more than fifty years.
